

The whole is greater than the sum of its parts

Digital workflow in refractive surgery today

 Saturday, 09 October
2021 Auditorium

11:45 AM – 12:45 PM (CEST)

Join our symposium and experience the new evolution of femtosecond laser, integrated in the corneal refractive workflow. Discover the digital connected infrastructure of devices, software and services and transform connectivity into success!

Our program:

Dirk Muehlhoff

Digital workflow in refractive surgery – today and future

Dan Reinstein, MD

Behind the scenes

Rainer Wiltfang, MD

Clinical outcomes – a first impression

Jesper Hjortdal, MD

Optimizing astigmatism management with new laser technology

Sri Ganesh, MD

Getting started - at the forefront of laser vision correction technology

Walter Sekundo, MD

Hyperopic SMILE®
